

PT Upright Bike - 4.0U

Performance and comfort
in a smooth ride

The PT Upright Bike - 4.0U is serves users with a wide range of movement abilities.

It focuses for an effective lower-body strength and conditioning workout.

Benefits

Seat adjust vertically and horizontally

Oversize seat is ultra-padded for comfort and stability. Multiple adjustments ensure a precise fit.

Add stability during exercises

With multiple positions and hand placements, handlebars provide a comfortable fit regardless of ride position. The upward curvature of the bullhorn serves as a forearm rest.

Maintain your desired heart rate

Heart rate-based programming is available at the touch of a button. Clinicians can assign their patients a targeted heart rate zone and the program adjusts the resistance accordingly to stay in the zone. A variety of preset programs gives users a number of choices for the type of exercise they are looking for.
